1.2 Do you agree with these comments?

1.3 What were the BEST things about the Program? What did you find most satisfying or positive?

- Nature and play based program, minimal technology and encouragement for the children to explore both indoors and outdoors themselves.
- The kids love it. Engaging, hands on and diverse.
- Enabling confidence in my 4y/o
- Excellent range of indoor and outdoor activities for boys which varies frequently
- Activities and learning opportunities
- Kinderloop
- The Staff
- The families and friends
- The colourful learning environment
- Outdoor area and animals

2017 Parent Satisfaction Survey Results All Results

Program based on children's interests, eg Fairies, telephone, bird feeder, ninja course. Adapted as they grow and change.

All the animals!

Focus on social skills.

Kinderloop is fantastic! Such a wonderful talking point.

My child loves the library books.

The change of the room and activities each couple of weeks exposes them to different things.

I like the list of behaviors/rules that the kids came up with.

The programs offered, the attention that goes to the children individually, the teaching staff, the follow through and feedback by teachers

Kinderloop

Activities and opportunities provided

Hands on tasks

Library borrowing system

Interaction with animals

The variety of activities set up each day to suit all different ability levels and areas of interest.

The positive reinforcement the children receive on a daily basis from all staff.

The way the children are encourage to come up with ways to problem solve and deal with conflict.

The kinder grounds are wonderful. A really lovely and beautiful space for my child to learn and play and the free roaming animals are such a special feature. Love it.

Staff

Environment

the teachers, the warm environment, the fantastic activities and different learning experiences

The best thing is the kids learning about aborigines.

A nurturing environment that at the same time challenged my child to do more, think independently and problem solve

my child has developed so much socially and intellectually this year

Range of activities inside and outside.

The range of experiences provided - so many amazing incursions and different types of play opportunities.

Group time and encouraging participation

The staff are amazing and create a beautiful supportive, caring and exciting learning environment for the children

Staff are very good. There re always different activities for the children to do to develop their skills

The diversity and variety, the hands on approach in the garden, the fun activities, show and tell, the teachers are amazing.

Staff engagement with the kids appeared to be really positive, and the children really enjoyed.

It engaged my child

The teachers and the families at Diamond Hills are all fantastic. Kinderloop has been a fantastic tool in keeping the parents updated on what's been happening at kinder. The book library is also great, it encourages lots of reading at home.

The hands on activities and all the interaction with the animals

Variety of activities. Stimulating and challenging for the children.

Great program, amaxing cating teachers

The variety of activities

The varying activities catering for all interests. The time and effort the staff put in to create a positive, supportive and nurturing environment and Program.

The variety ensures boredom doesn't creep in

Teachers

Development relationships

best things about the program that there was a lot of different things the kids learnt.

The best things about the program were there was lots of things the children learnt. The most satisfying and positive thing was seeing my child come home and talk about the things they did with a smile on their faces and being happy.

real life activities, e.g. cooking, gardening, looking after animals, environmental awareness

Many things. These are just a few...

Kinder library

Healthy eating

Kinder Animals

Taekwondo

Ninja warrior

Incursions

Edendale farm excursion

The ability to work with our children and excel them in areas of development required. Whether that be social or academic. Personally all the teachers have been outstanding but I would like to make a special mention to Kim who has been outstanding with her interaction with the children and particularly my son who prior to this was a complete introvert. You have helped him be comfortable and confident and he absolutely loves Kinder

Enthusiastic staff promote a positive, friendly environment for the children. Lots of fun activities that are changed regularly and a great range of incursions. Children are allowed to be/express themselves and are not expected to conform to a stack of regimented routines (unlike another kindergarten we attended).

The array of activities always on offer daily and the unique activities prepared over the course of the year

2017 Parent Satisfaction Survey Results All Results

Making friends
 EVERYTHING
 Teachers are enthusiastic
 Teachers, the animals, the overall experience with special occasions
 The introduction of Kinderloop was definitely a positive allowing parents who can't always help at kinder see what is being done in the program
 My child enjoys socialising and lots of time spent outside
 Activities, socializing amazing teachers
 Support and encouragement for my child
 Variety of stimulating activities and play that are provided at each session.
 Well structured program and great facility
 Healthy lifestyle, music, reading.
 The interaction with other children and the growing confidence in my child.

1. 4 What were the areas of the Program that you feel could be improved? All feedback is appreciated.

Encouragement for the quieter children to get more involved. I feel like our child may have been overlooked at times because he is quiet, still meeting milestones and not behaviorally a problem.
 None that I can see
 More space in locker area
 Honestly, I can't think of anything! Wine for parents on pick up?
 Nothing that comes to mind
 Nil
 The hours of the program being split across two days. We would have preferred one session and for longer. We feel the same about the 4year old program. having to full days would be far more practical rather than 3 short days.
 None
 Nothing i can think of
 More basic number & letter recognition. Can count and sing alphabet song but no idea if it's a number or letter when written.
 Nil
 My child has thrived so much that I can't fault it
 Maybe focusing on a different letter of the alphabet each week and foing some activity's around this letter.
 Some room for improvement communication/handling of confronting/challenging situations.
 More focus on introduction to table time and learning as in school
 Fantastic program.
 Nothing to mention.
 preparing school readiness including early literacy and numeracy skills. There is a big jump between kinder and school expectations.
 Group timetable can be improved, hours like 9-3 would attract more families to use kinder problem over childcare service
 None
 Lunch is always quite late (often 1pm or later) which I think tires out some of the younger children that have started at 8/8.30am.
 Perhaps more engagement with the children as a group
 None
 Nothing
 None
 More preparation for 4 year olds in Term 4 for school.
 A little more structured on occasions?
 Little more hrs 2.5-3 hr sessions would be beneficial just as she warms up time to come home
 School readiness
 While I like that children can choose what interests them, I wish more direction was provided so they would try the different activities on offer instead of playing with their same favourite one or two things every session.
 Longer hours

1. 6 What about your child's learning this year are you most proud of?

His speech and language development - he has always been a 'good talker' but this year he has begun asking questions and having discussions around topics we didn't even know he was aware of.

Confidence

Writing

Listening and following instructions

Friendships

Interest in activities

The way he built things with different materials

His passion for STORY time and borrowing books on a weekly basis

Creativity. Her ideas, and attitude towards trying and inventing things. Her social skills.

This is a great year that gets them ready for school, it is a much different format to long day care kinder.

I like that the teachers extend each individuals child learning based on what they are playing without them realizing it.

Everything

Forming friendships

Art: Creating things with different materials

His knowledge of different topics explored

His excitement regarding show n tell

Library borrowing

Watching her grow in confidence and learn the important skills of resilience and the value of respect.

The increase in her social interaction and the friends she has made.

Social development

That he is writing

Her ability to problem solve, her resilience and her emotional growth

Her love of going to kinder and thirst for knowledge. We count down the days until her next sessiin every week.

Much more confident

Having more confidence

The improvement in his social skills and resilience

His drawing has improved and he loves learning

His paintings and drawings and his knowledge of the garden and vegetables - he knew what a radish was - I didn't LOL

Simply my child's enthusiasm for kinder

My child loves attending kinder, even on a day when he doesn't go he says the favourite thing of the day is that 'he is going to kinder tomorrow'!!

Her social skills have improved

Sense of wonder and enthusiasm which has been not only maintained but nurtured in this environment.

Social skills, learning to speak up if thir is a friendship problem

His participation in many different activities

Focus levels have improved significantly

Vocabulary

His confidence

Learning are number/letters whivh she learnt at a differtant program

Learning new things, this was through different activities etc.

Their ability to learn more and accomplish a lot more things than other kinder programs don't have.

My child seemed to be engaged in most activities. I am proud of her development in writing and engagement with books.

making friends

His confidence and sharing his learning experiences at home

2017 Parent Satisfaction Survey Results All Results

My son has become a little social butterfly as prior he was introverted and did not understand how to engage other children. He now is a confident and sociable little boy.

The Taekwondo (sp?) program was thoroughly enjoyed by my daughter who came home each week showing us what she had learned! Also seeing my daughter grow in her abilities to draw/create and sing songs.

The friends they have made

Tolite training

How he has come out of his shell and his social ability

His language and expressions

Confidence

Communicating more with other children and teachers.

Mixing well with other children. Enjoying attending.

Talking to her teachers opening up finally :)

Growing confidence and social skills

Following instructions and rules.

Learning to clean up after themselves.

His adaptability

Numbers, sharing and knowing healthy foods.

My children has become comfortable taking direction from teachers and parent helpers has made friends and loves kinder

Additional comments about the program or it's delivery.

Very happy with the program

We have loved our time at Diamond Hills. It is sad to be moving on. It is a wonderful program, lovely setting with amazing, caring, innovative teachers. Thank you for everything you do.

The introduction of kinderloop this year has been great for communicating what my child has been doing since I am not always at drop off and pick up.

Love it

I couldn't have asked for a better kinder year for my daughter. She absolutely loves going to kinder each day. She experiences a bit of separation anxiety but the staff know exactly how to deal with it to make sure she is happy and comfortable.

We think its a really great kinder. Our daughter loves going there.

Absolutely amazing facility with the best staff

It would be great to have the option of a third session every week.

Thank you so much for creating such a wonderful learning community and for your dedication to giving all the students a great start to their education. We love Diamond Hills Preschool!

He is having lots of fun and learning lots at the same time

All the teachers are so caring and lovely, I'll be sad when the year is over

Love Kinderloop app

Brilliant

Love teachinf staff, so knowledgeable, approachable. Habe approached me in a friendly, caring manner about a getting ready for school issue for my son and then explaiined how they were going to help, what i could do at home snd and follwed up, i reslly appreciated this relationship. Teachers make this kinder, theyre fabulous.

Its lovely to see the staff so engaged and committed to delivering a good program and being actively involved with the students

A fantastic program with lovely staff.

Fine

No

One thing I wanted to comment on was about the departure on the children at the end of the day. The bag area is small and can be difficult when small children and adults are clambering in there getting bags. Would it be better to get the children to pack there bags up themselves (Also would help in readiness for school) and have them on the mat with their bags instead of having the chaos at the door every session.

Teachers knowing children's names and possibly being a little more compassionate towards 3 year old groups.

Both ladies are absolutely amazing would not change a thing

Big pat on the back :)

I have found diamond hills great my child gets excited every kinder day and has made friends with the children in the group it's a great environment

2. 5 If your child was in the 4 Year Old Program this year, what did you like BEST about Kinderloop?

Sharing with family that live interstate

Instant photos in which we could use as talking point to discuss day at Kinder. Link to Kinder when I'm working.
I love the photos and a description of what they have been doing. I can show and ask questions of my child to get more from them otherwise i get I cant remember or nothing?

Constant communication and knowledge of exactly what the kids are doing which then prompts good conversations with the kids

Everything

The photos and comments showing what my daughter had experienced at kinder that day. Also, the regular updates about what is happening at kinder along with reminders.

Kept up to date. Had info straight away. Able yo share with the family

Interaction

Loved that we were updated instantly on what they were doing each day.

The 24 hr access. There is nothing better than being at work and receiving a notification and then seeing great photos of your child and seeing what they have been up to

i loved it, keep it great for parents to keep informed of how their child is going

Fantastic conversation started to have photos from recent experience to discuss with my child.
Helped me to feel really aware of what was happening during sessions

Finding out what they did during the day

Knowing what he has been doing without him telling me

The photos to see what they were doing during the day, so as to ask more questions.

Receiving daily updates about what my child has done at kinder and seeing some pictures

The photos

Great authentic snippets from the kinder day. About the child, not just line up and take the same photo of something thats happening

Showing me what he did that day/week.

Having more/up to date insight into what happens in the kinder sessions.

The real time activities

Easy access to updates

Photos and weekly/daily update

All the pics and info that happened on that week about the children.

All the pics and info that had happened each session and I could show my child and they could discuss with me their day.

Photos

When I would ask my son how Kinder was, his response is always "good"! What did you do, his answer "everything"! With Kinderloop I am able so see what he has been doing and show him Kinderloop (photos,videos) and he would go into greater detail about his day. Kinderloop created an open dialog with my son

Seeing the activities they were doing during the week...knowing what they were learning about...but the best part - the photos!

Loved everything about it

Being able to see what they were participating in

The photos help to prompt conversation from my child and they are also great memories to keep for them to reflect on. Its also extremely easy to use.

Regular updates of my child's activities and time spent at kinder

Easiness.

2017 Parent Satisfaction Survey Results All Results

2. 6 If your child was in the 4 Year Old Program this year, what did you like LEAST about Kinderloop

Nothing - it is a great tool

Platform a bit temperamental at times - sometimes it would crash, or not be able to comment.

There is nothing I do not like, I think we would all like to see more photos of our own children but this needs to be balanced except I would like to download all the information at the end of the year, as I would like to keep a portfolio so this will be a test?

At times had info on other kids

Not getting folder at end of year

Nothing loved the App

Nothing it was great

Lack of notifications - I received them in the trial phase but not in the full roll out. I have uninstalled and reinstalled the app and it still doesn't work properly. I still preferred the learning journals, especially as my children love to look through their past ones even now.

Nothing

I want to be able to open photos and save them to my phone

That we are unable to save the photos, I hope we get copies of them at the end of the year.

The only other negative is there is lots of content to print out.

Nothing, loved it

That you don't get a hard copy portfolio of the year

That you can't save the photos

There was nothing I dislike.

That I would forget to check it. Need to change settings to receive notifications

Received a post from other Kinder kids from another 4 year old session. If that happened to me, who else could this have happened to?

Nothing...

Only happened a couple of times but another child's photo had come up on my feed and I don't think it was supposed to be for me but for another parent.

Sometimes hard to access photos had to login online

Nothing.

If you feel we can improve our communication with families and/or better offer opportunity for feedback during the

I think if a parent specifically asks for a meeting with a teacher the best effort should be made to organise a non-class time 1:1 sit down. Even if it's only for 5 minutes and the teacher doesn't believe there is any problem with the child - sometimes the parents need to talk/need reassurance or have an issue they want to bring up. Not everyone is comfortable discussing things in the playground/classroom environment.

Email communication instead of (or in addition to) pocket notes. Paper notes were often lost!!

I think kinderloop is great. I think the kinder could still consider a parent teacher type meeting for 4 year old mid year/ 3rd term before school.

I think the teachers need to approach us with concerns and make times to discuss concerns and not make it a quick chat in the playground at pickup

I'd prefer an email or notifications rather than handouts in pockets!

It would be great to have an app where all communication is in one place, e.g. message from teacher, newsletter, fundraising info, one on one messages with teacher etc.

The whiteboard is great but sometimes I forget to check it. Might be nice to have a permanent key dates/info summary as well

Communication is great

More social events!

Communication has been very good.

Fine

I don't think communication could be improved more I think I've probably relied on Kinderloop more this year as I have had numerous issues with emails.

I felt communication was good

3. 1 Which of the following fundraising and events did you attend/participate in this year (please select all that apply).	Cadbury Fundraiser (Term 1)	Welcome Night (Term 1)	Pasta Drive (Term 2)
<p>Please note that we forgot to include the Aver & Line Family Photo Session in Term 2</p>	40	30	14
	Pasta Drive (Term 3)		
	13	23	16

If you have any other feedback regarding Fundraising please comment here

Fundraising levy?

Love the healthier option fundraising especially the apple and pears

Amazing group of women who went above and beyond

Fantastic job ladies! Very organised. We also did the family photos. It was great timing as I got the images as my mother's day present.

Great fundraising activities, especially the trivia night which was fantastic!!

It's pretty full on. Is there no way to gain more funding from govt to reduce burden on families?

It's a very strong fundraising committee and very impressive with regards to what is raised

We would have participated in the trivia night but tickets sold out quicker than anticipated

Doing a great job

I think the fundraising team did well this year.

Would be happy with the option to pay a "fundraising fee" rather than several fundraisers over the year

	9	14	4
	Probably Not		No
	12	6	

Comment

The meetings are extremely hard to commit to
 We run our own business which is very time consuming...
 Na

3. 5 How would you like to see the session helping roster structured?	Paper Sign Up Sheet at sign-in book (Current)	Online Sign Up Sheet	Pre-allocated session, once per term per family
	31	11	4
	Other		
	1		

Comment

Pre-allocated is not a bad idea to ensure all families are involved, but happy with the paper sign in
 I think the pre-allocated session may not be a bad idea but deepens on how often per year as I take annual leave to do them.
 Online as I am not always there at drop off and pick up so dont see it
 I like the flexibility of choosing when but would prefer if it was online so I can see when is avaiable and check which upcoming dates I've put my name down for.
 Combination of paper sign-up and online
 if parents cannot help due to other commitments then a financial donation would be acceptable.
 I think this should be volunteer rather than pre-allocated.

3. 6 Are you aware of the Diamond Hills Master Plan for building works?	Yes, I've seen the plans and am aware of what's being done and the different stages	Yes, but I'm not really sure of the details	No

3. 12 What was the main reason you chose to enrol your child at Diamond Hills Pre-School, eg. good reputation, closest to home,

They embrace their natural environment. The area they are it has not been damaged to include the Kinder. It appears to work with and around the natural environment and encourages the children to embrace natural as well as teacher lead learning - such as growing vegetables, feeding/respecting/nurturing the animals etc

Good reputation and programs. Love the animals

Location - close to Primary School child will go to

Plus reputation from friends, that this was a good one in the area (for my local preschools). Coming from a childcare program we had also made the decision that the preschool program at a kindergarten was more valuable than long day care provided. I do not regret this decision and for anyone that can make it work I definitely encourage switching

Excellent reputation

Good rep, close to home, close to school.

I wanted to get my child out of daycare as he had already done half a year in their kinder room.

It was close to home and had a good reputation. I visited and immediately wanted him to go there.

Reputation

Good reputation, close to home, the animals.

Wonderful staff

Animals

Safe carpark

Outdoor play area

location and lovely environment and animals.

Great reputation

It felt right as soon as i walked in. And then i met Kyla and i was sold!

The warm welcoming feeling when we walked in. Our daughter was comfortable from first few minutes. Also the outdoor area, in particular the sensory garden and creek, animals, large flat grass area and all the different little areas. At the time we met Annmaree, Kyla and a committee member and they were all passionate about the kinder and happy to answer questions.

Closest to home, great location, excellent reputation.

It's close to home and as soon as we walked in the gates to visit the first time we knew this is where we wanted our children to go to kinder. The staff are always welcoming, the programs are amazing and the grounds are well maintained and engaging for the students. We love that there are a range of class pets/animals.

Good reputation and close to home.

Close to home and elder sibling school.

Close to home and a good first impression

Lovely feel, I liked that everyday is an open day at Diamond Hills.

My husband grew up in the country so loved that Diamond Hills has a really country feel.

We love all the animals!

Good reputation and was so welcomed when I came in to visit the kinder.

Good reputation, within my local community (ie:close to home) and great first and subsequent impressions when touring/calling to discuss preschool for my children. Staff and volunteers were patient informative, realistic and honest with an emphasis on what is good for the children. This prioritisation of the children was probably them main point.

Reputation. Vibe. Close to home

Closest to home

The lovely environment, which includes the teachers we met on our tour and the animals. The kinder felt welcoming and comfortable as soon as we walked through the gate.

Long term committed staff, Very welcoming, lovely outdoor area.

Any kinder that can be bothered with the commitment of having animals has my vote!

Had a lovely 'feel'

Good reputation and close to home and future school so he would have friends

Animals

The friendly and experienced staff. The session times are great. It's close to home too. When I first did a tour I loved the layout inside and out.

Close to home and positive word of mouth from the community and current families.

Balanced session times over 3 days.

My child also liked the fact that there were lots of animals at the kinder.

Good reputation and closest Kinder to Home and older children's school

At the time I was new to the Greensborough area and received multiple recommendations from friends, acquaintances about Diamond Hills. It was a no brainer

Good reputation...plus we loved all the animals and the staff seemed very friendly.

Reputation, location

Close to home lovey kinder my 2 boys went there

Close to home

Good reputation

2017 Parent Satisfaction Survey Results All Results

Good reputation people always had positive things to say about the kinder and we weren't disappointed, also it was closer to home.

Good reputation and closest to other child's school

Reputation & location

Reputation, four year old teachers, animals, easy to get to, close to school

Good reputation, and recommended be a friend who had previously attended.

Also is closest kinder to our house, so very convenient. Only nillumbik kinder option that is suitable.

Good reputation

Heard great things.

Close to home recommend by playgroup mothers

Closest to home and good feedback

Reputation , staff, programs offered, play area

Is there anything else you would like to add about your time at Diamond Hills Pre-School in 2017 please do so here.

Thank you for your hard efforts in 2017 - teaching team and committee, parent helpers.

We love Diamond Hills! The teachers, program, friends and all the animals.

I love the kinder and the teachers. It is a great community kinder.

My experiences and the experiences of both of my children have been only positive at Diamond Hills PS. Keep up the excellent work!

We have loved our time at diamond hills pre-School, we feel as though we are part of a big happy family.

What a fantastic start to our daughters educational experience! Thankyou to all the staff and committee who genuinely care about the kids and the kinder. You definitely help the kids shine!

Our son has enjoyed attending, and we have enjoyed getting to know other parents.

The 8 oclock start has been a bit difficult to get there in time.

I would like to thank all the staff and parents that help make it such a wonderful preschool

I'll be really sad to leave at the end of the year but I hope my daughter gets accepted when she is due to start kinder.

Thanks for a great year!

Fantastic experience. I'm very happy with the level of care, education and opportunities that has been provided.

Very positive

Loved it. Wished it had more government funding as it seems so precarious and yet so very important! Thank you xx

It has been a positive experience and we have been very happy with the program and the staff. Thank you.

We love Diamond Hill Pre-school...the teachers are always so friendly and helpful. After class they are happy to chat about things that have gone on during the session /tell you about what your child has been doing etc.

Just worried about snakes in summer time with the chickens attract snakes and sand pit should be checked for them to and there s lots of bushes around the kinder they could hide under I'm hoping theses areas will be checked

No great kinder thanks
